Global Muslim Market Potential

In today's fast-paced world, the global Muslim community is in need of tailored services. AI for Ummah has identified an untapped market with strong demand for primary services provided through self-service AI product and a services bid marketplace.

Muslim populations around the world will grow by 25% in the next two decades, according to new research by the US-based Pew Forum on Religion & Public Life.

See more information here on the data graph:

The Future of the Global Muslim Population

Muslims as a Share of World Population, 1990-2030

10 billion

Non-Muslims

4.2 B (1990)
4.8 B (2000)
5.3 B (2010)
5.8 B (2020)
6.1 B (2030)

Muslims

1.1 B — 19.9% (1990)
1.3 B — 21.6% (2000)
1.6 B — 23.4% (2010)
1.9 B — 24.9% (2020)
2.2 B — 26.4% of world population is Muslim (2030)

Percentages are calculated from unrounded numbers. Cross hatching denotes projected figures.

Islamic Wills Technology

Secure your legacy with our innovative Islamic Wills App. Let our AI-powered platform guide you through creating a comprehensive and Sharia-compliant will for your loved ones. Join us in shaping the future of Islamic estate planning today.

Islamic self-service will creation using AI assistant, review reminders and maintenance. Will documents can be created, signed and maintained (including download/printing) on same platform, and wills can be linked to other users (family and non-family users). AI assistant to provide best practice Islamic Wills topics of discussion among family members (and non-family members and organisations considered to be nominated for Will monies) all done within the platform (i.e. text and video call).

Upon an individual's death, app allows third party service providers, including tax and superannuation accountants, estate planning lawyers, to collaborate with each other and with an individual's will beneficiaries (family and non-family members), and help with execution of court orders and monies being distributed effectively and efficiently to will's beneficiaries bank accounts (net of death taxes) from lawyer's trust accounts.

Islamic Marriage Match-Making Technology

Find your perfect match through Islamic principles.

Using AI assistant to match-make brothers and sisters based on listed preferences shared by users. AI assistant can help facilitate group chats between Wali, brothers and sisters by recommending key marriage topics to discuss to enable marriage conversations to progress, and recommend best practice next steps when at stages of face-to-face meetings (including overseas match-making).

Will be 100% Sunnah approach with online chats required for Wali (Islamic legal guardian) to be included in group chat. No 1:1 DM feature between users. Includes prompt-based education feature for islamic marriages (pre/during/post marriage divorces)where users can ask Sheikh AI specific questions (either via text or voice) based on their personal circumstances and Sheikh AI will provide answers using references from Quran and authentic Hadith.
